Arrow Park was founded by Slavic families from mid-century New York City and nearby urban centers to preserve and celebrate their collective history through cultural, artistic, educational, recreational, and memorial projects in a peaceful and natural setting.

FRIENDS OF ARROW PARK, a 501c3 not for profit, was created by present day shareholders of Arrow Park who wish to honor our founders and their desires and wishes to extend these noble efforts to embrace a wide range of ethnicities, where all can celebrate art, literature, and their individual and collective heritages.
